

Adler Summer Camps Terms and Conditions

Please call the camp hotline at (312) 322-0329 with any questions regarding the Terms and Conditions.

Adler Summer Camps are peanut free.

Age Affirmation:

The Adler Planetarium takes great care to design age-appropriate camp curriculum each summer. Campers must fall within the designated age and grade ranges specified in the descriptions by the first day of camp. The Adler reserves the right to request a birth certificate to confirm a camper's age at any time before or during camp. If this does not match with the birth date information entered at the time of registration, placement in camp will be forfeited and no refunds will be made. This policy is to ensure that all campers have the best possible camp experience.

Cancellations and Refunds

For all camps: To receive a 90% refund, we must receive your cancellation 60 days or more prior to the start date of your camp session. If cancellation is received 15 to 59 days prior to start date you will receive a 50% refund. Within two weeks or less of the start date, no refund will be given for cancellations.

Waiver

Prior to the start of camp, you will be e-mailed a copy of a waiver and photo release. You must sign and bring that waiver on the first day of camp. No child will be admitted to camp without a signed waiver.

Allergies and EpiPens:

The Adler Planetarium is concerned for the health and safety of all children participating in the Camp when at Adler. All camp staff are trained to recognize the signs of a severe allergic reaction and in the administration of EpiPens. Accordingly, when an enrolling child has a severe, life-threatening allergy, the following process is required:

**POLICY FOR ADMINISTERING EMERGENCY TREATMENT
TO CHILDREN WITH SEVERE ALLERGIES**

1. A signed copy of Adler's Authorization for Emergency Care of Children With Severe Allergies ("Authorization Form"). The Authorization Form must be filled out completely by the child's physician and parent(s)/guardian(s) and must be updated as necessary. The Authorization Form is designed to provide Adler with the information necessary to ensure proper preventative measure and an effective response to a serious allergic reaction occurring at Adler. In addition, the parent(s)/guardian(s) shall provide a copy of any other physician's orders and procedural guidelines relating to the prevention and treatment of the child's allergy.
2. A signed copy of Adler's Release and Waiver of Liability for Administering Emergency Treatment to Children With Severe Allergies ("Release"). The Release releases Adler and its employees from liability for administering, attempting to administer or failing to administer treatment to children with severe allergies (including the administration of Benadryl, epinephrine and/or any other medications) and taking any other necessary actions set forth in the Authorization Form.
3. All equipment and medications needed by Adler to comply with the instructions set forth in the Authorization Form (including, but not limited to, a device such as the EpiPen. Jr.). The parent(s)/guardian(s) is responsible for ensuring that all medication is properly labeled by a pharmacist and replaced prior to the expiration date.
4. If a child enrolled in the Camp has severe allergies, then prior to the child's first day of attendance, the parent(s)/guardian(s) or their designee(s) is responsible for training selected employees of Adler whom participate in the Camp on the nature of the child's allergy(ies), including (i) the events/substances that may trigger a severe allergic reaction (e.g., bee sting, consumption of peanuts or products containing peanuts, etc.), (ii) with respect to food allergies, limitations on the child's food consumption, (iii) symptoms of a severe allergic reaction, and (iv) when and how to administer treatment for a severe allergic reaction, including, where appropriate, the procedure for administering Benadryl or epinephrine through an EpiPen. Jr. or similar device.

Upon review of camp rosters, parents/guardians of children with severe allergies will be contacted and sent copies of Adler's Authorization for Emergency Care of Children With Severe Allergies and Adler's Release and Waiver of Liability for Administering Emergency Treatment to Children With Severe Allergies. Please note that all four steps outlined above are mandatory so that we may provide the best camp experience for all campers.

THE CAMP WILL BE RESPONSIBLE FOR THE FOLLOWING:

1. The completed and signed Authorization Form and Release will be maintained in the Camp files, and copies thereof will be provided to and discussed with appropriate Camp staff.

2. In the event a child is provided emergency medical treatment for a severe allergic reaction, the instructions provided on the Authorization Form will be followed, 911 will be called immediately, Security staff will be notified of the camper's condition and location, and the child's parent or guardian will be contacted.

3. In the event a child is provided emergency medical treatment for a severe allergic reaction, the Camp staff member who provided emergency medical treatment will prepare an incident report as soon as practicably possible after the event to document the steps that were taken to administer treatment to the child, including the symptoms expressed, treatment/medications provided, timing of treatment, individual providing treatment, individuals contacted, etc. This report will be kept and maintained in the Camp files.
