### STARBURST SCAVENGER HUNT!

Pick up a Name/Pronoun Tag? Collect five glitter star stickers on your name/pronoun tag throughout the museum (programs identified below) and return to Planet Explorers on Level 4 for your final star & a super cool prize!

## ADLER EXCLUSIVE

### Drag Me to the Stars

8:00, 9:30 – Level 4, Grainger Sky Theater

Celebrate the fusion of queer art and science at this special, one-night-only drag show in the Grainger Sky Theater hosted by Phazma Plazma and Auntie Chan!\*

\*Capacity limited. Please plan to arrive 15-30 minutes early. Standing room only. Performers will be available for a meet & greet after each show in the Grainger Sky Theater

### Photo Booth

6:30–10:30 – Our Solar System

Don't forget to memorialize your fabulous evening out in space at our photo booth!

### Transformation Station

6:30–10:00 – Level 3 South [behind lockers]

Need a space to change into your cosmic persona? Or just a place to chill out for a bit? Visit the Transformation Station!

### Face Painting – with Neko Harris

6:30–10:00 – Planet Explorers

Make sure to visit artist Neko Harris, who will help elevate your spacey look.\*

\*Queuing for face painting will take place in the “Rover Pit” area of the exhibit

### Science From All Sides – with the Challenger Learning Center

6:30–9:30 – Planet Explorers [Curiosity Station]

Explore scientific concepts like fluidity and density in a series of hands-on experiments from our friends at the Challenger Learning Center! And add your own unique element to their “Science 4 Everyone” mural board!

## SKY SHOWS & PRESENTATIONS\*

\*All theater shows/lectures/presentations are included in your admission ticket, and are between 15-30 minutes long. Plan to arrive at the theater 15-30 minutes before your chosen show time(s); seats are first-come, first-served.

### Show: *Imagine the Moon* – NEW

7:45, 9:15 – Level 2, Definiti Space Theater

To some, the Moon may seem cold and remote. To others, its predictability brings comfort. Our celestial partner has been a source of wonder for all of human history, so come explore our fascination with the Moon up close at this brand new sky show!

### Show: *Cosmic Gays & Non-Binary Stars*

7:00, 8:30, 10:00 – Level 2, Definiti Space Theater

Explore the spectacular sights of the night sky in this reworking of both well-known and more obscure star lore told through a queer lens.

### *Out in Space Team Trivia* – with Malic White

7:30 – Level 1, Samuel C. Johnson Family Star Theater

Bring your crew and challenge other teams in a battle of queer pop-culture, astronomy and more!\*

\*Guests can play individually or as a team. The winning person/team will be justly rewarded with fabulous prizes.

### Talk: *Out in Space: A Conversation About Science & the LGBTQIA+ Community*

8:30 – Level 1, Samuel C. Johnson Family Star Theater

Join host Lisa Beasley of the Nova Collective and a panel of scientists and researchers who identify as LGBTQIA+ in a conversation about their work and how gender identity impacts their respective disciplines, and the importance of queer representation in science.

\*Capacity limited. Please plan to arrive 15-30 minutes early.

### Show: *Welcome to the Universe*

9:30 – Level 1, Samuel C. Johnson Family Star Theater

From the surface of the Earth to a supercluster of galaxies a billion light years away, explore space first hand in this show.

**BARS:** 6:30-10:15

**DJ:** Lucy Stoole

**SPECIALTY COCKTAIL:** *The Sally Pride*

**DINNER FOR PURCHASE**

*Galileo's Café* – Level 4: 6:30-10:30

## OTHER HAPPENINGS

### ★ *Pride Planets!*

6:30–10:00 – Level 2, Community Design Lab

Create your own planet that represents your identity, and then see if your planet will hover in our wind tunnel. Afterwards, take your planet home and display for all to see!

### ★ *UV Light*

6:30–10:00 – Level 2, Telescopes Exhibit

Explore part of the electromagnetic spectrum that we can't actually see with our eyes—ultraviolet light—with hands on experiments.

### ★ *Spectroscopy*

6:30–10:00 – Level 4, Mission Moon

Did you know elements in our universe have their own unique chemical fingerprints? Check out how we can tell what stuff millions of light years away is made of at this program!

### ★ *Auroras*

6:30–10:00 – Level 2, The Universe Exhibit

Auroras are one of my nature's most awe-inspiring sights. Learn how these light shows are formed and create your own aurorae with our spectrum tubes!

### Telescope Observing

6:30–10:30 – Outside Level 3 South

Weather permitting

### Astronomy Conversations – Space Visualization Lab

6:30–10:30 – Level 2, Near Telescopes Exhibit

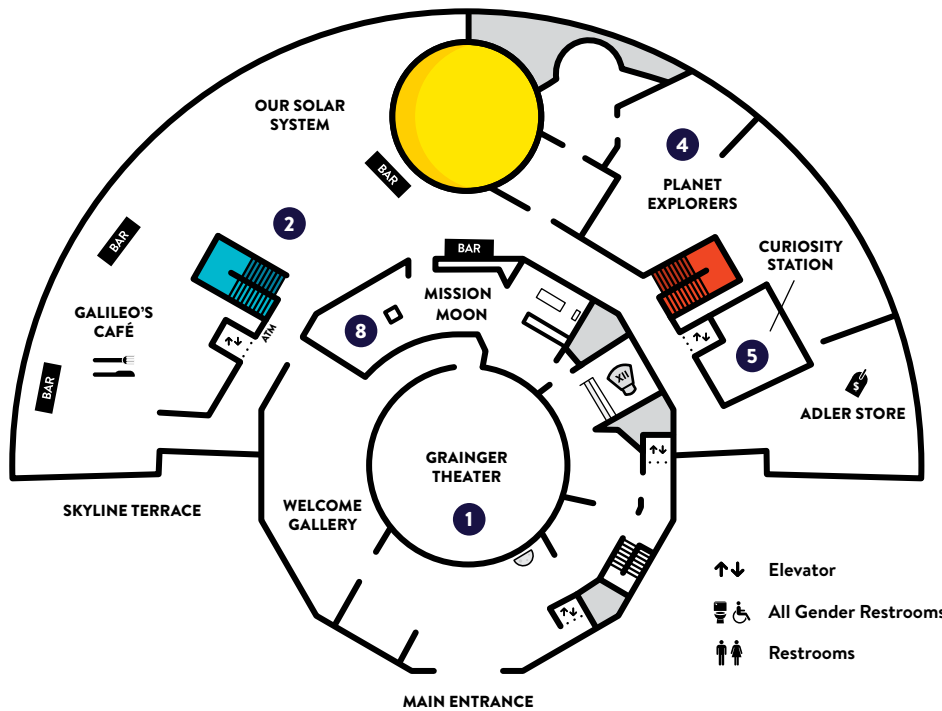

Chat with astronomers and physicists about the coolest stories & hottest news in your universe.

### Atwood Sphere

6:30–10:00 – Level 2

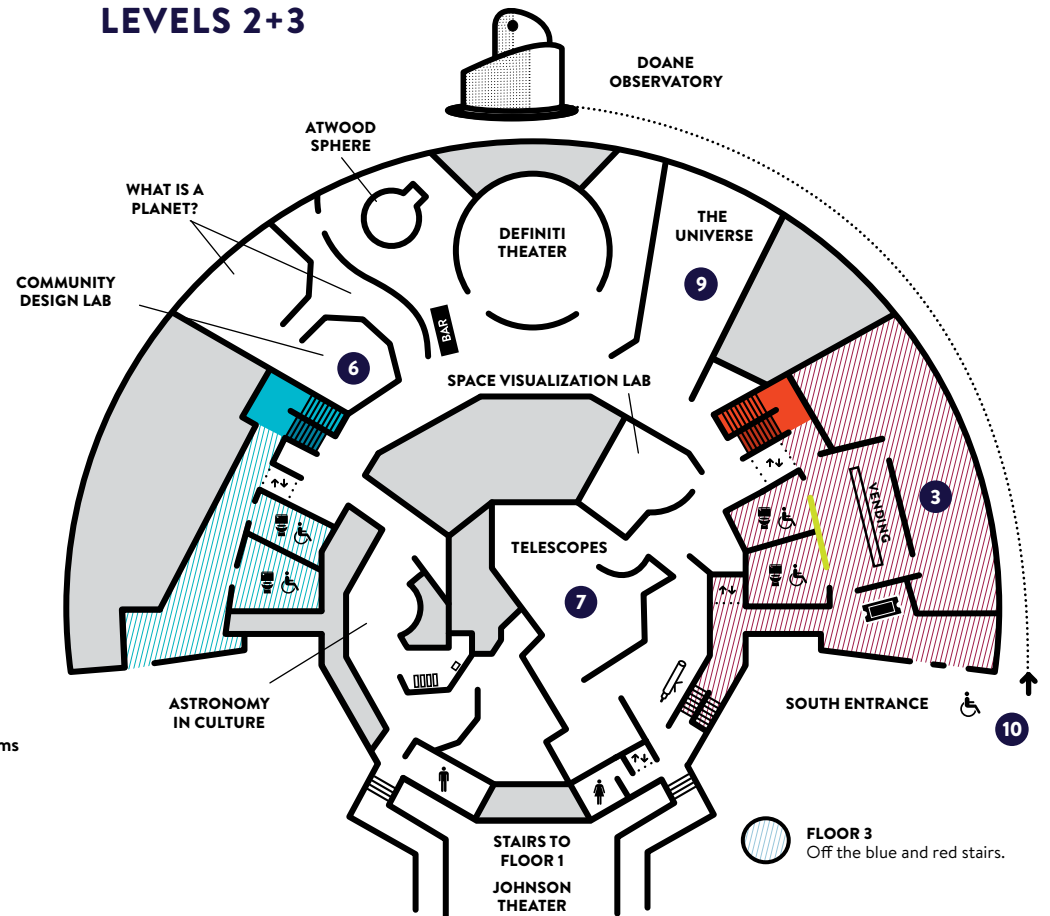

Navigate the night sky in a 106-year-old mechanical planetarium.
